Introduction to e-CAM121_CUONX

e-CAM121_CUONX is a new mobile industry processor interface (MIPI) camera from e-con Systems, a company with over two decades of experience in designing, developing, and manufacturing OEM cameras. The MIPI camera consists of a IMX412-AACK-D camera module which is connected with NVIDIA® Jetson Orin Nano™/Orin™ NX development kit in 4-lane mode. It is provided with an S-mount (M12 board lens) lens holder. The S-mount is one of the most commonly used small form-factor lens mounts for board cameras.

The camera module is a small, low-power, high performance 12 MP camera module that utilizes NVIDIA® ISP, which supports uncompressed NV12 format. This camera module is based on 1/2.3" optical form factor IMX412 AACK-D CMOS image sensor with global shutter from SONY®.

e-CAM121_CUONX requires a custom driver for the NVIDIA® Jetson AGX Orin™ development kit. e-con Systems provides the prebuilt driver for this camera along with the camera board.

This document explains about the directory structure and contents of the release package for NVIDIA® Jetson Orin Nano™/Orin™ NX development kit.

Package Manifest

This section describes the detailed information of package manifest.

The below table lists the top-level directories and files that are created when you extract the **e-CAM121_CUONX_JETSON_ONX_ONANO_<L4T_version>_<release_date>_<release_version>.tar.gz** release package.

Table 1: Package Manifest Directory Contents and its Descriptions

Directory	Description
Application/	Directory containing application source code and dependencies.
e-CAM121_CUONX_<L4T_version>_<JP_VERSION>_JETSON-ONX-ONANO_<release_version>.tar.gz	Compressed archive containing the required binaries for updating Jetson Orin Nano™/Orin™ NX.
install_binaries.sh	Install script for installing pre-built kernel, application binaries and miscellaneous on the Jetson Orin Nano™/Orin™ NX.
Kernel/	Directory containing patch files for e-CAM121_CUONX.
release_integrity.md5	Encrypted file containing the md5sum of the e-CAM121_CUONX archive.

Overview of Package Manifest Directory

This section provides detailed information about each directory of the release package.

Application

The below table lists the directories containing the application source code and dependencies required for e-CAM121_CUONX camera on the Jetson Orin Nano™/Orin™ NX development kit.

Table 2: Application Directory Contents and its Descriptions

Directory	Description
eCAM_argus_camera/Source	Directory containing application related source code for Jetson Orin Nano™/Orin™ NX.
eCAM_argus_camera/Source/ eCAM_argus_camera.tar.gz	Archive file containing eCAM_argus_camera application source code for Jetson Orin Nano™/Orin™ NX.

Kernel

The below table lists the patch files required for e-CAM121_CUONX camera on the Jetson NVIDIA® Jetson Orin Nano™/Orin™ NX development kit.

Table 3: Kernel Directory Contents and its Descriptions

Directory Contents	Description
e-CAM121_CUONX_JETSON_ONX_O NANO_L4T35.4.1_kernel.patch	Patch file related to the default kernel, device tree, and camera module for NVIDIA® Jetson Orin Nano™/Orin™ NX development kit that adds support for the e-CAM121_CUONX.
e-CAM121_CUONX_JETSON_ONX_O NANO_L4T35.4.1_dtb.patch	
e-CAM121_CUONX_JETSON_ONX_O NANO_L4T35.4.1_module.patch	

CMOS: Complementary Metal Oxide Semiconductor.

DTB: Device Tree Blob.

ISP: Image Signal Processor.

L4T: Linux for Tegra.

Contact Us

If you need any support on e-CAM121_CUONX product, please contact us using the Live Chat option available on our website - <https://www.e-consystems.com/>

Creating a Ticket

If you need to create a ticket for any type of issue, please visit the ticketing page on our website - <https://www.e-consystems.com/create-ticket.asp>

RMA

To know about our Return Material Authorization (RMA) policy, please visit the RMA Policy page on our website - <https://www.e-consystems.com/RMA-Policy.asp>

General Product Warranty Terms

To know about our General Product Warranty Terms, please visit the General Warranty Terms page on our website - <https://www.e-consystems.com/warranty.asp>

Revision History

Rev	Date	Description	Author
1.0	24-May-2023	Initial draft	Product Marketing Team
1.1	01-July-2023	Support for both Orin Nano™ and Orin™ NX development kit	Product Marketing Team
1.2	27-August-2023	Jetpack updation from 5.1.1 to 5.1.2	Product MarketingTeam
